Year in Review

- 2004 market momentum lost in the second half
- Good progress made on key areas under our control
 - Working capital
 - Internal cost management in merchants
- PaperlinX has come through a difficult year in a good financial position
- Key long term opportunities progressed
 - Pulp project
 - Merchanting synergies
 - Brands

Strategic Position

- A well diversified earnings base
- World's only global fine paper merchant
- Unique Australian manufacturing with key long term strategic advantages
 - Reflex brand
 - Local supply
 - Long term customer contracts
 - High quality fibre supply
- Scope for increased returns
 - Global and regional synergies in paper merchanting
 - Cost reductions and strategic manufacturing investments
 - Continued structured working capital reduction

Economic Background

- European economic performance was subdued, volumes were weak and average prices were below the prior period
- First half economic performance improved in USA with woodfree coated paper demand increasing - underpinning announced selling price increases in the USA
- Australian pricing was weak in
- All major markets saw reduced demand in second half
- Significant currency movements have negatively impacted profits
 - Impact on Australian paper selling prices
 - Affecting export earnings from Australia
 - Translation of foreign currency earnings
- Higher international oil prices and freight rates have increased underlying industry cost base
- No signs yet of cyclical upturn

Coated Woodfree Paper Demand – Apparent Consumption

	Period change versus prior year		
	1 st half	2 nd half	Turnaround
US	+ 15.8%	- 4.6%	- 20.4 pts
Europe	+ 4.8%	- 0.2%	- 5.0 pts

Source: Risi, Cepifine, PaperlinX estimates

US – apparent consumption

Europe – deliveries to W Europe

- Weaker second half consumption in both US and Europe
- PaperlinX volumes were at or ahead of both the US and European market growth (excluding restructuring)

Result Summary

- x Weak global demand for paper leading to declining prices in Europe and Australia
- x Manufacturing issues on M4 / Impact of Maryvale fatality
- x Australian manufacturing profit impacted by strong A\$ and lower A\$ priced import competition
- ✓ Paper selling price rises in the USA and Asia
- ✓ Merchant synergy targets exceeded
- ✓ Lower working capital, working capital / sales ratios and strong cash flow achieved
- ✓ Improving returns in paper merchanting:
 - Based on internal focus, productivity gains, synergy benefits
 - Reflects success of merchanting acquisitions
 - European acquisition strongly earnings per share accretive
- ✓ Overall volume growth ahead of market growth
- ✓ Positive impact of Australian Tax Consolidation
- ✓ Sound balance sheet ratios

Australian Tax Consolidation (ATC)

- Australian legislation enacted 2003
- Parent companies and wholly owned Australian subsidiaries
- PaperlinX elected to consolidate from 1 July 2003
- Reset cost base of certain depreciable assets
- Required a restatement of deferred tax balances in the balance sheet
- Resulted in net tax adjustment of \$77m through the profit statement

Australian International Financial Reporting Standards (AIFRS)

- Does not impact operations, strategy or business performance
- All Australian companies required to report under AIFRS from first reporting period after 1 January 2005. i.e. for PaperlinX the year 1 July 2005 to 30 June 2006.
 - Opening entries are in balance sheet 1 July 2004
 - Comparatives are prepared for the prior year (i.e. 1 July 2004 to 30 June 2005)
- May result in future reported earnings volatility predominantly due to
 - Impairment testing
 - Defined benefit pension plan
 - Financial instruments (from 1 July 2005)
- PaperlinX results for 2005 are based on existing reporting standards
 - 2005 results are restated under AIFRS for comparative purposes for the 2006 reporting year.

Changes Impacting PaperlinX from AIFRS

Major changes

- Impairment testing of non-current assets
- Defined benefit retirement plans
- Equity based Remuneration - share options and shares
- Non amortisation of goodwill
- Business combinations / acquisitions

Minor changes

- Reclassification of computer software to intangibles
- Financial instruments
- Income Tax

Adoption of AIFRS areas of impact:

- (i) Opening transitional balance sheet entries at 1 July 2004
- (ii) Annually through profit and loss

- Maryvale fatality

Australian Paper - Communication Papers

		12 months Jun 04	12 months Jun 05	Change %
Sales Volume	'000 tonnes	506	522	3
- Australia / New Zealand	%	78	73	
Sales Revenue	\$m	715	700	(2)
Profit Before Interest & Tax	\$m	44.8	12.3	(73)

- Reduced Australian sales volumes and margin
- Increased lower margin exports
- Impact of stronger Australian dollar
 - Lower average Australian paper selling prices – down 4%
 - Reduced imported pulp costs
- Core brand support
 - Relaunch of Reflex and Australian helped turn market share
 - Overall up 10 pts
- Australian paper market softer at end of period

Australian Paper - Packaging Papers

		12 months Jun 04	12 months Jun 05	Change %
Sales Volume	'000 tonnes	330	318	(4)
• Australia / New Zealand	%	81	77	
Sales Revenue	\$m	254	243	(4)
Profit Before Interest & Tax	\$m	21.6	10.0	(54)

- Reduced Australian linerboard demand and overall volume
- Exchange Impact
 - Lower ANZ selling prices for sack and bag
- Operational difficulties on M4 impacted efficiencies
 - New production manager, tail feeding equipment, camera systems

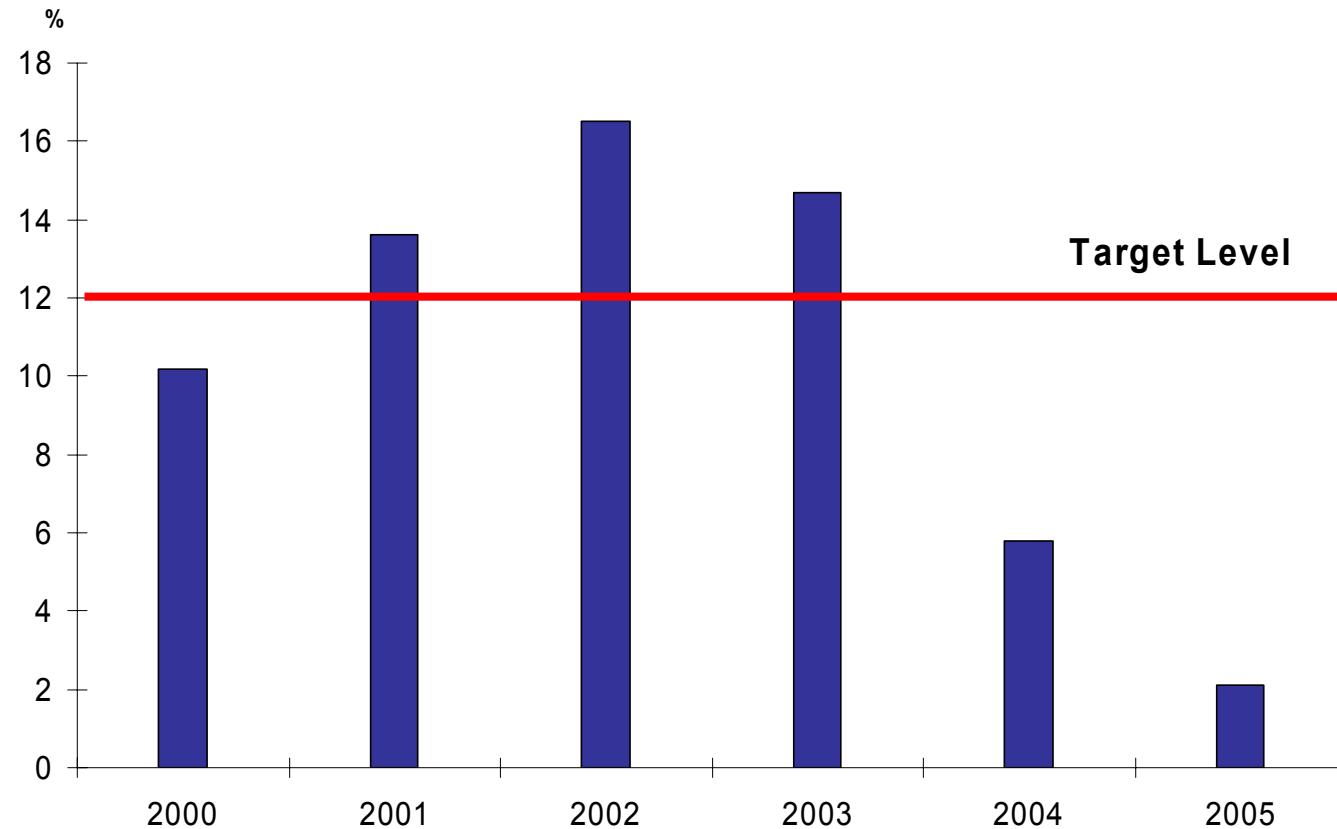

Australian Paper - Consolidated

- External conditions remain difficult
- Structural issues being addressed
 - M4 performance improving
 - M1 semi-extensible upgrade in commissioning phase on schedule
 - Pulp mill upgrade and new bleach plant to improve product quality, cost competitiveness and environmental performance
- Focus on brands and customers
- Evaluate opportunities to optimise production capacity
- New safety programme

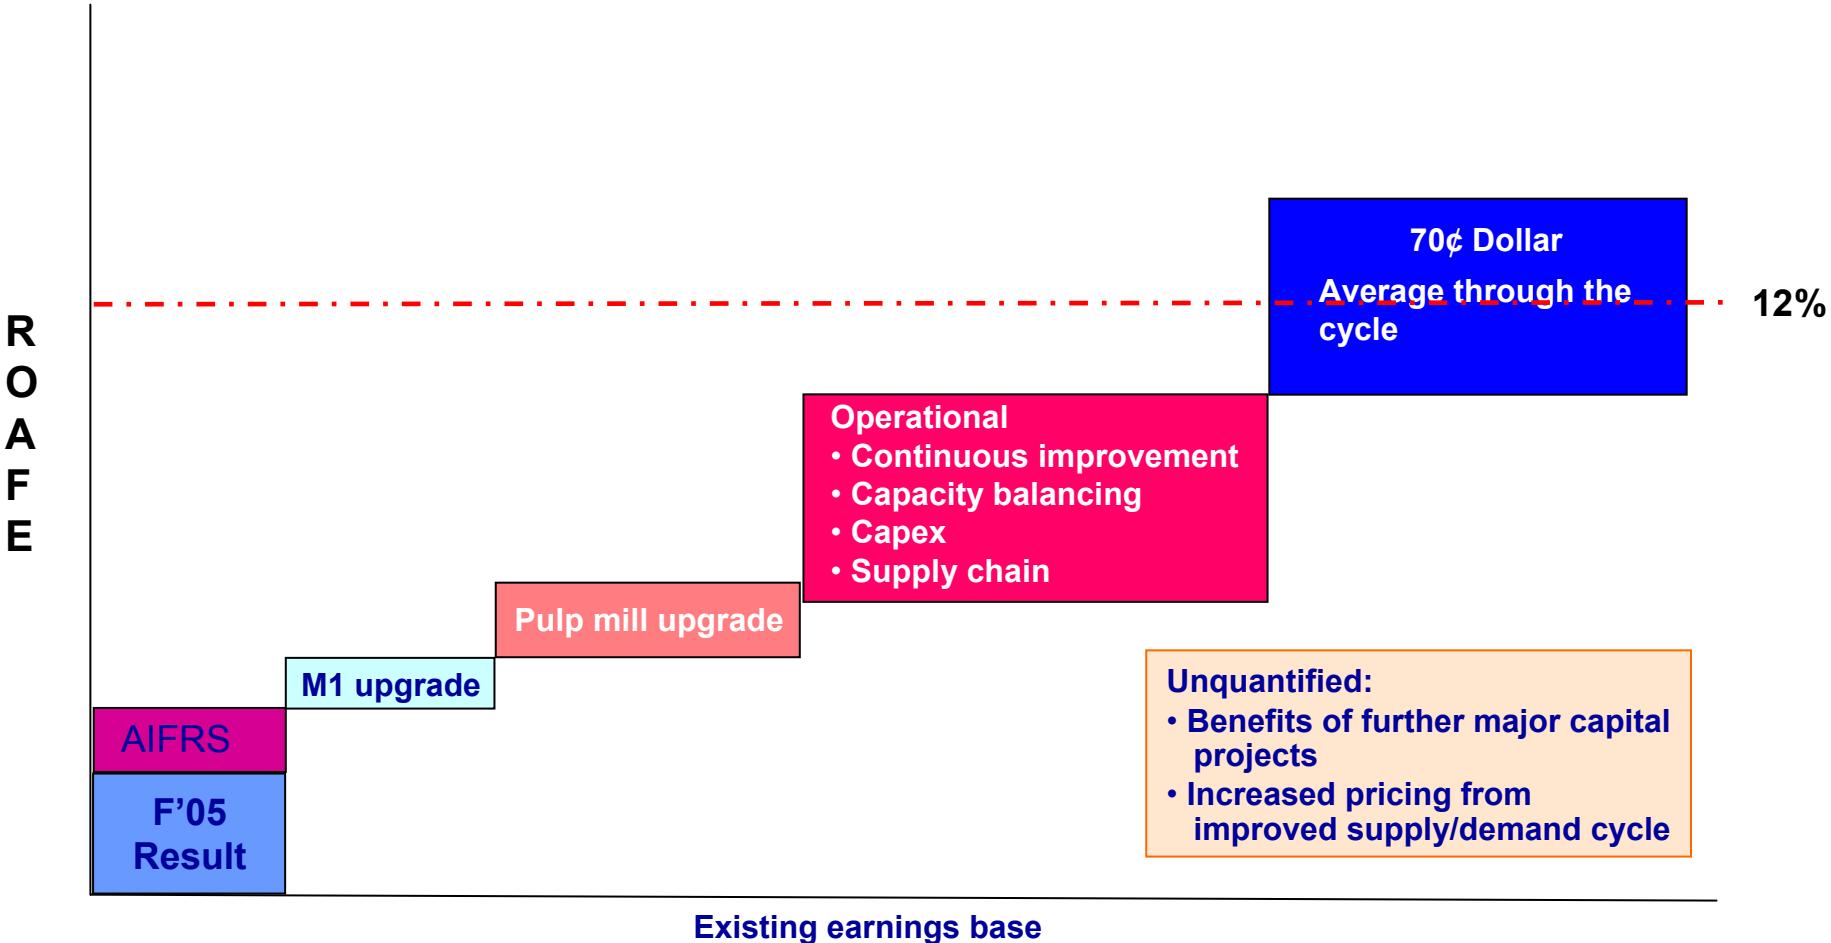

Pulp Mill Upgrade and New ECF Bleach Plant

- Upgrading Maryvale Mill's pulp capacity and replacing the existing bleach plant – total cost \$192 million (plus \$11 million of capitalised interest)
- Upgrade of ancillary services – total cost \$55 million from ongoing capital expenditure budget (\$18.2 million per year over 3 years)
- Underpinning business capacity to meet “through the cycle” return targets
- Improves competitive position both in terms of cost and product quality
- Leverages on strategic advantages
- Improves environmental performance
- Separate presentation to follow providing additional detail

Australian Paper Return on Funds Employed

Actions to achieve 12% ROAFE

Business Outlook - Overall

- First half F'06 reflects continuation of weakened second half F'05 environment
 - Current weak levels of paper demand seen through year end
 - Paper selling prices will be impacted by demand and currency relativities
- Improving trend in domestic sales of Australian made copy paper
- Improvement in returns for paper merchanting
 - Ongoing focus on cost management and working capital
 - Regional and global synergy benefits
- Opportunities to build on merchanting platform
- Structural changes in Australian Paper to improve competitiveness and product quality – no quick fix

Business Focus

- Secure cost and synergy benefits
- Grow brands
- Invest in areas of competitive advantage
- Reduce working capital
- Prioritise activities based on value creation
